# GLOBAL TUBING SOLUTIONS

## About Us

- Global Tubing Solutions is a specialized engineering service provider offering heat exchanger tubing and retubing solutions for a wide range of industrial sectors.
- We serve refineries, fertilizer plants, steel plants, petrochemical units, and power plants by delivering reliable, safe, and high-quality services aligned with international standards.
- With a strong technical team, modern tools, and disciplined execution, we ensure efficient and long-lasting performance of heat exchangers and boilers.

## Our Services

- Heat Exchanger Tubing & Retubing
- Boiler & Condenser Tubing
- Tube Removal & Installation
- Tube Rolling & Expansion
- Maintenance & Shutdown Jobs
- Boiler Tube Expansion
- J-Grooving of tube sheet holes
- Boring of tubesheet hole
- **Tube Sheet Grooving**
- Tube to tubesheet TIG welding
- Customized solutions as per client and site requirements.

# GLOBAL TUBING SOLUTIONS

## WHY GLOBAL TUBING SOLUTIONS

### Specialists

We focus only on tubing — and we do it right.

### End-to-End Capability

Tool manufacturing + skilled execution = faster turnaround.

### Safety & Quality First

Zero compromise. Every job. Every time.

### Experienced Technical Team

Hands-on professionals with deep plant experience.

### On-Time Delivery

Planned execution without delays or shortcuts.

## INDUSTRIES WE SERVE

- ◆ Refineries
- ◆ Petrochemical Plants
- ◆ Fertilizer Plants
- ◆ Steel Plants
- ◆ Power Plants
- ◆ Process Industries
- ◆ Paper & Sugar mill Industries

## OUR PROMISE

At Global Tubing Solutions, we promise **safe execution, superior quality, and reliable performance** on every project we undertake.

# SAFETY & TRAINING POLICY

At GTS, safety is our top priority. All retubing activities are executed with a **zero-compromise safety culture**, ensuring protection of personnel, equipment, and client assets while complying with applicable industry standards and site reqs.

## Our Safety & Training Focus Includes:

-  **Retubing job safety** awareness and toolbox talks
-  Safe handling and operation of retubing tools and accessories
-  Hazard identification and risk control during **retubing execution**
-  Emergency response readiness and **site safety preparedness**

All retubing equipment is **well-maintained**, inspected, and operated only by trained and authorized personnel, ensuring safe and **reliable performance** throughout project execution.

Through regular training programs, safety briefings, and continuous improvement practices, GTS ensures high standards of operational **safety**, consistency, and quality in all retubing works.

## ENVIRONMENTAL POLICY

GTS is committed to performing all **retubing** operations in an **environmentally responsible** and **sustainable** manner.

-  Compliance with applicable environmental regulations and site requirements
-  Minimization of waste generation during retubing works
-  Proper handling, segregation, and disposal of removed tubes and materials.
-  Prevention of contamination to surrounding work areas.

# OUR EXPERIENCE

## 10+ Years India

## 6+ Years Gulf

### MAJOR PROJECT EXPERIENCE (INDIA & GULF)
